

Volume 40 Biological Science (2023)

<i>Article Title</i>	<i>Authors</i>	<i>Pages</i>
Genotoxic impacts of Teucrium apollinis medicinal plant via HGPRT gene and DNA damage	Nagat S. Elhaddad, Hoda Khatab, Eman Belkasem, Nagah Abubaker	1-25
Urinary microbiota and lower urinary tract disorders	Alshimaa Moawad Abdelrhman Elahwal, SH. M. Husseiny, A. sayed Ahmed, Amira Awadalla	26-52
Green Fluorescent Protein: discover, structure, purification, applications, and future prospects	Hend Anter, Sherif Moussa Husseiny, Fafy A. Mohammed	53-71
Antimicrobial, antioxidant and antibiofilm activities of polysaccharides extracted from Moringa oleifera leaves	lamis saleh mohamed, mohamed El awady, Zeinab Kheiralla, Soheir S. Maklad, Elham E. Moustafa	72-83
Pollen morphology of some Rosa L. cultivars from Egypt	Fatma Abdelnaby Ali, Wafaa Morsy, Reem Mohamed, Sahar Abdel Rahman, Sahar Abdel Fattah	84-106
Biochemical and molecular identification of ten plum (Prunus salicina L.) cultivars in Egypt based on their physiological traits, chloroplast and mitochondrial DNA markers	Hasnaa Hamdy Al-Agwany, Eglal M. Said, Thoria R. Mohamed, Zinab A. Abdelgawad	107-133
Evaluation of reproductive capacity in adult male rats exposed to silver nanoparticles and the ameliorative role of lycopene	Somia Rashed Fouad, Mai H. El-Dakdoky, Marwa T. Hassan	134-152

Potential protective role of spirulina algae and/or aminoguanidine on carbon tetrachloride induced liver fibrosis in rats.	mona fathy shawky, M. I. Heibashy, S. R. Wahba	153-170
Modelling Environmental Factors on Bloom Forming Cyclotella species (Stephanodiscaceae Glezer & Makarova (1986) in the Central Bonny Estuary, Rivers State, Nigeria	EYINA HENRY DIENYE, F. D. Sikoki, G. N. Woke, O. A. Olopade, J. C. Ikwemesi	171-197
